

Why P.B. Odom is the Best Developer in Oklahoma City

Dare to Compare

When you can have the best, why choose the rest

Lets start at the beginning:

- 75 years in business
- Your home is only as good as the foundation – We require 95% compaction the same as State & Federal specs on highways and roads – on not only our roads but also “all “ the land. We do not want your foundation to fail. This costs us a lot more but it is worth it.
- We strip all the topsoil off and reapply, after dirt work is all done. Basically you get 4-6” of Top Quality topsoil over your entire home site.
- Our hand picked builders adhere strictly to our restrictions.
- Our hand picked builders take care of you the customer from start to finish and after the sale.
- Our neighborhoods appreciate at the absolute fastest – so your home is worth more in a P.B. Odom neighborhood.
- Rivendell – our flagship community is voted 7 times, by its citizens of Oklahoma City, as the best neighborhood.
- This same attention to detail is the same for all of our neighborhoods.
- If you’re in \$150,000 or \$1,000,000+ we have the right area for you.

Choose the best for your family – don’t settle for less.
